SKILLS

Web development

Anchoring I've been anchoring right from the beginning and being on the stage make me feel like, this is the one thing I can do without getting bored.

Communication skills It goes without saying that, if I am a good anchor, my communication skills would also be one of my top skills.

HTML I am not a professional HTML developer but gradually increasing my skills in the field.

CSS CSS is a demanding thing in web development I'm developing my skills in it.

Ms Office. I'm quite good in MS office, Word, Excel and PowerPoint are tools I can easily manage.

C This language was the very first language I came across when I got admitted in computer applications

OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization and can showcase myself to the world and myself and prove my ability and existence

EDUCATION

Shri Shivaji Science College Amravati 2022
Bachelor of computer Applications
